Cancer Research UK

www.cancerresearchuk.org

Proudly, the sole visual designer at the award winning in-house Digital / UX department. Successfully delivering hundreds of responsive websites / iOS apps and counting.

Working closely with UX designers and developers to ensure end products are polished to a high visually engaging standard. Expertly raising the bar and dictating digital brand guidelines, managing pattern libraries, creating designs from evidence based decisions and core brand guidelines.

A truly motivated designer, involved in every project passing through the digital department. Making the role of a designer my own.
